WORK EXPERIENCE

Web Developer | [CodeSoft](#)

December 2024 – January 2025

- Built a responsive multi-section landing page with semantic HTML, Flexbox/Grid, and media queries aligned to CodSoft Level-1 Task-1 expectations for layout quality and responsiveness.
- Implemented reusable sections (nav, hero, services, testimonials, contact) with accessible roles/labels and basic SEO tags to improve usability and discoverability for a beginner web project.
- Optimized assets, minified CSS/JS, and documented setup/deployment as a static site to streamline handoff and review by mentors.

Video Editor And Graphics Designer | [Freelancer](#)

August 2022 – Present

- Partnered with 30+ global clients across multiple time zones, delivering end-to-end editing and design projects with on-time handoffs and clear briefs-to-deliverables documentation.
- Completed 200+ video edits and 100+ static assets (posters, YouTube thumbnails, promotional posts), showcasing high-volume workflow management and consistent brand adherence.
- Completed 200+ video edits and 100+ static assets (posters, YouTube thumbnails, promotional posts), showcasing high-volume workflow management and consistent brand adherence.
